PROFESSIONAL SUMMARY

I am a passionate frontend developer with expertise in creating dynamic, user-friendly web interfaces using modern frameworks like React and Next.js. My focus is on delivering seamless user experiences through clean, efficient, and maintainable code. Constantly learning and evolving, I thrive in collaborative environments that challenge me to push the boundaries of creativity and innovation.

WORK EXPERIENCE

Bank Respublika

Mar 2025 - Present

- Worked as a Frontend Developer in the Retail Card team at Bank Respublika, focusing on React, Node.js, and TypeScript.
- Developed high-performance, user-friendly interfaces using modern libraries such as MUI and Redux Toolkit.
- Actively contributed to the development and optimization of Retail Card products and related processes.

Weblash

Mar 2022 - Mar 2025

- Built fullstack web applications using React.js with TypeScript and Node.js with MongoDB
- Designed and served RESTful APIs, improving system performance and reliability
- Collaborated with cross-functional teams to deliver end-to-end solutions

ERP-INTEL LLC

Aug 2023 - Jan 2025

- Developed and optimized ERP and CRM systems using TypeScript, React, Node.js and Express
- Designed responsive UI components with Ant Design and Tailwind CSS, ensuring scalability and maintainability
- Integrated and maintained RESTful APIs, enabling seamless data flow across modules

Code Academy

Oct 2022 - May 2023

- Teaching Fullstack programming to students
- I give assignments to students and check their assignments

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, SASS, JavaScript, ECMAScript 6, TypeScript, React.js, Redux, Redux Toolkit, Tailwind CSS, Ant Design, Material UI, Figma
- **Backend:** Node.js, Express.js, Nodemon, JWT, Mongoose
- **Databases:** NoSQL (MongoDB), SQL databases (MySQL, PostgreSQL)
- **API Integration:** RESTful APIs, Axios, Fetch API, Swagger, Postman, Open API
- **Version Control & DevOps:** Git (GitHub, GitLab), CI/CD pipelines
- **Problem-Solving & Collaboration:** Debugging, performance optimization, and working in cross-functional teams to deliver high-quality solutions

EDUCATION

Azerbaijan State Oil and Industry University • ASOIU Master's degree, Robots and Robotics System Engineering	Sep 2023 - Jun 2025
Baku Engineering University • BEU Bachelor's degree, Process Automation Engineering	Sep 2019 - Jun 2023
Code Academy Course, Software Engineering	Jan 2022 - Aug 2022

LANGUAGES

- **Azerbaijani** - Native or bilingual proficiency
- **English** - Limited working proficiency

PROJECTS

Kadr360 - HR systems - <https://kadr360.com>

- Contributed to the development of the Kadr360 HR platform by building various modules with React, Node.js, and MySQL.
- Implemented features such as employee management, leave and shift scheduling, as well as face recognition and geolocation-based check-in/out.
- Played a key role in designing the overall system architecture and optimizing performance.

ERP Systems

- Engineered ERP modules for resource planning and workflow automation.
- Built with React, TypeScript, Node.js, Express, MongoDB, and integrated testing & logging tools.

Weblash - Website - <https://weblash.az>

- Developed a full-stack company website with modern UI/UX and seamless backend integration. Built with React, TypeScript, Tailwind CSS, Node.js, Express, and MongoDB.

Rigforce LLC - Website - <https://rigforce.az>

- Created a responsive and scalable business website to improve client digital presence.
- Built with React, TypeScript, Tailwind CSS, and RESTful APIs.

Signoracucina - Website - <https://signoracucina.az>

- Created a responsive and scalable business website to improve client digital presence.
- Built with React, TypeScript, Tailwind CSS, and RESTful APIs.

Eskina - Website - <https://eskina.co.uk/>

- Created a responsive and scalable business website to improve client digital presence.
- Built with React, TypeScript, Tailwind CSS, and RESTful APIs.
